

CONSEILS D'UTILISATIONS

IRIX LSM is a multi-purpose, extreme-pressure range of greases formulated from premium mineral base oils and a Lithium thickener.

PERFORMANCES

NORMES DIN 51 502
 ISO 12924

IRIX LSM grease can be used to lubricate bearings, gears and all mechanical units operating under high loads.

- **Grades 0-00:** Reducers, centralised greasing, gears in crankcases, various parts working in a cold atmosphere, all soft EP grease uses.
- **Grade 1:** Centralised greasing.
- **Grade 2:** Suitable for a wide range of general-purpose lubrication applications ranging from bearings to cables, chains and other linkages. Also suitable as a multipurpose chassis, pin and bushing grease.
- **Grade 3:** Truck hubs, very loaded sleeves.

PROPRIÉTÉS

Couleur	Visuel	Ambre
Viscosité à 40°C (104°F)		130.0 mm²/s
Point de goutte		190 °C
4 Ball test		<0.6 mm Wear / 285 kg Weld load
Essai TIMKEN - charge		≥45 lbs
Grade NLGI		3
Thickener		Lithium Simple
Penetration 60 strokes		235 1/10 mm at 25 °C
Temperature range		-20 to +140 °C
